30. Dice

PAGE NO.:

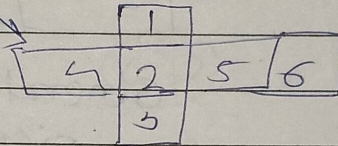

DATE: / /

→ 6 face

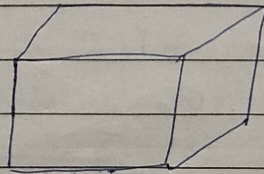

Question types:-

- ① only 1 Position 
- ② two position 
- ③ more than two position 
- ④ open dice →

what on dice:-

- ① 1 — 6
- ② . — ∴
- ③ A — F
- ④ symbols (% , # , @ , ©)

Standard Dice

1 ↔ 6

2 ↔ 5

3 ↔ 4

General dice

- Random dice

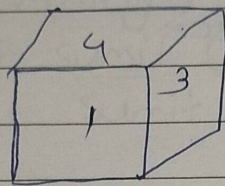

- Property not fixed

Opposite side sum = 7

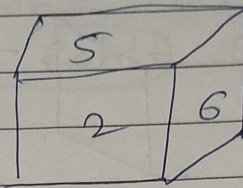

Front side sum Not 7 = SD

GD - sum 7 of two sides
 SD → sum not 7 of two sides

Standard
 Dice

Standard
 Dice

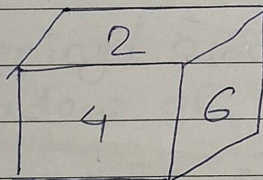

General
 Dice

General
 Dice

Type-1 :- only one position given (SD/GD)

①

SD

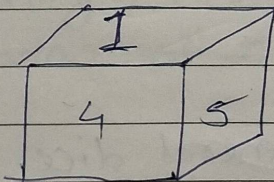

Find opposite sides :-

① 4 → ③

② 5 → ②

③ 1 → ⑥

②

SD

Find opposite sides :-

① 6 → ①

② 2 → ⑤

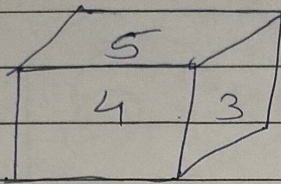

③ 3 → ④

GD $\rightarrow$ opposite sides are not fixed

PAGE NO.:

DATE: / /

(3)

(GD)

Find opposite sides:-

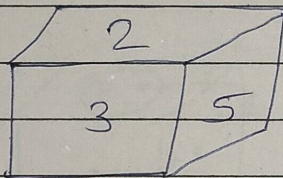

(1) 6 $\rightarrow$ 4/5/3

GD $\rightarrow$ opposite sides not fixed

(2) 2 $\rightarrow$ 4/5/3

(3) 3 $\rightarrow$ 1/2/6

(4)

(GD)

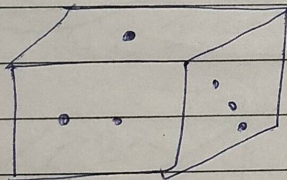

Find opposite sides:-

(1) 6 $\rightarrow$ 3/2/5

(2) 5 $\rightarrow$ 4/6/1

(3) 1 $\rightarrow$ 3/2/5

(5)

(SD)

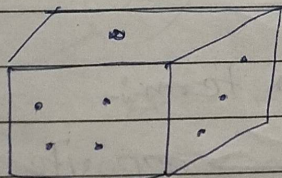

Find opposite sides:-

(1) 5 dot $\rightarrow$ 2 dot

(2) 6 dot $\rightarrow$ 1 dot

(3) 1 dot $\rightarrow$ 6 dot

(6)

(GD)

Find opposite sides:-

(1) 5 dot $\rightarrow$ 4/1/3 dot

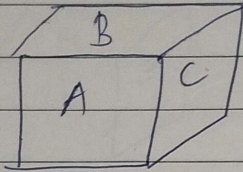

(2) 3 dot $\rightarrow$ 5/6/2 dot

In TYPE-1 questions of A, B, C alphabet or symbols #, @, % not coming.

PAGE NO.:

DATE: / /

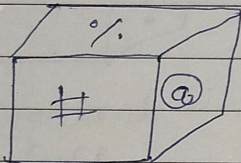

⑦

Find opposite side

- ① A → cannot determine
- ② B → cannot determine
- ③ C → cannot determine

⑧

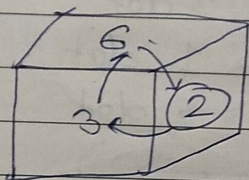

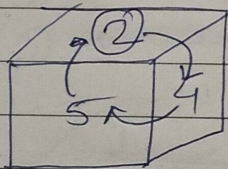

Find opposite sides:-

- ① # → cannot determine
- ② @ → cannot determine

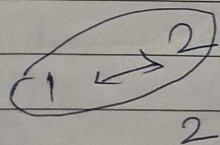

TYPE-2:- Two Position given

case-1 :- one Common

①

Clockwise फिरो From Common term:-

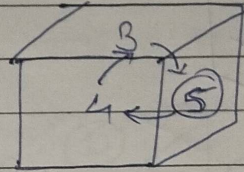

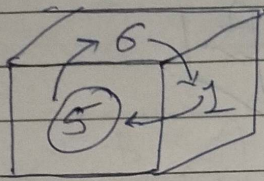

4
↑
3

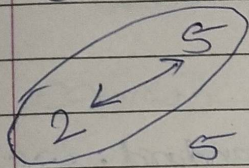

5
↑
6

→ opposite sides

②

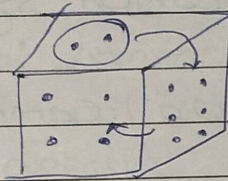

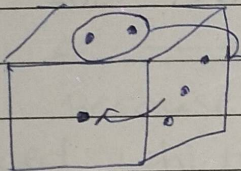

Clockwise :-

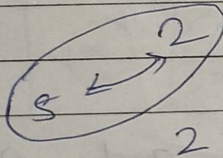

6
↑
41
↑
3

→ opposite direction

③

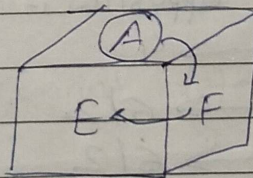

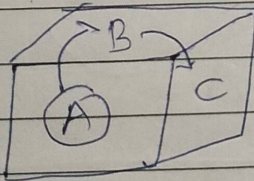

Clockwise :-

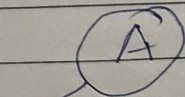

3
↑
61
↑
4

← opposite

④

Clockwise :-

B
↑
FC
↑
ECannot
determine

A

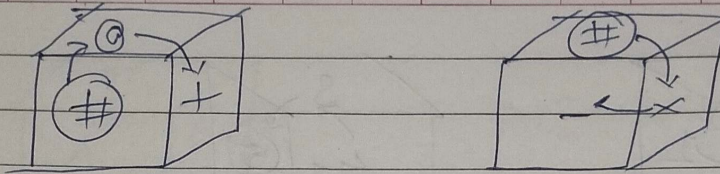

because alphabet are not standards if question mentioned A → F alphabet then we say D is opposite. or None of these. provide them also D opposite.

only 1-6 and $\cdot \rightarrow ::$ are standards.

PAGE NO.:

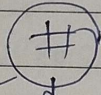

DATE: / /

⑤

cannot

determine

#

x

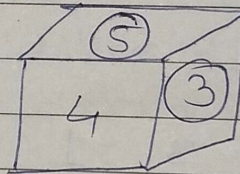

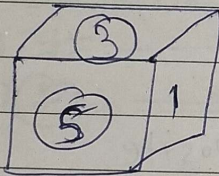

-

because symbols have not standard. we don't know which symbols are used

case 2:- Two Common

①

Two Common Term remove and other sides are opposites:-

1 $\rightarrow$ 4

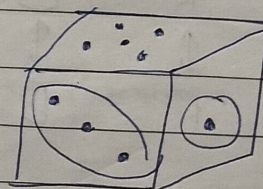

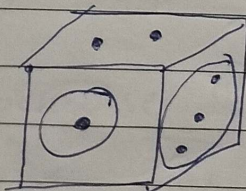

5 $\rightarrow$ 6/2

3 $\rightarrow$ 6/2

6 $\rightarrow$ 5/3

2 $\rightarrow$ 5/3

②

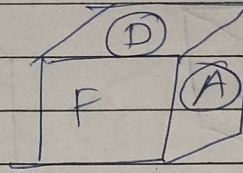

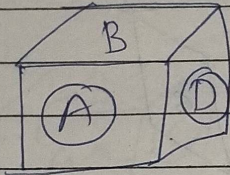

Common Term Remove other remaining opposites:-

$$2 \longrightarrow 5$$

$$6 \longrightarrow 1/3$$

③

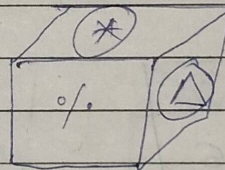

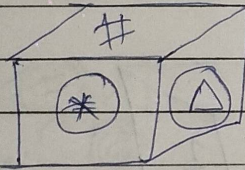

Common Term Remove and other opposite

$$B \longrightarrow F$$

$$A \longrightarrow \text{cannot determined}$$

Because It is not standard and not fixed which side opposite.

④

$$\# \longrightarrow \%$$

common term remove
and other opposite

$$\Delta \longrightarrow \text{cannot determined (not standard)}$$

⑤

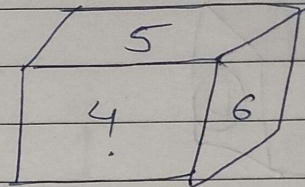

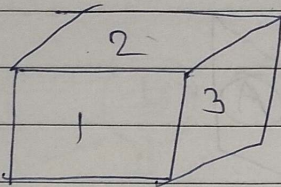

7/4/2025

PAGE NO.:

DATE: / /

Case-3 :- No common term

①

check standard dice or General dice.

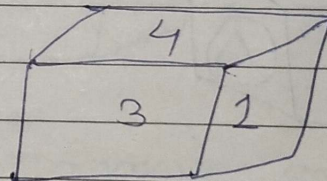

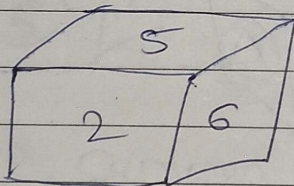

(SD) $\rightarrow$ property opposite side
sum = 7

1 $\rightarrow$ 6

2 $\rightarrow$ 5

3 $\rightarrow$ 4

②

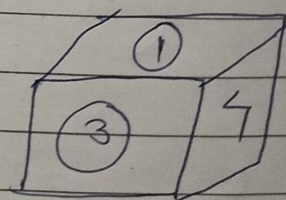

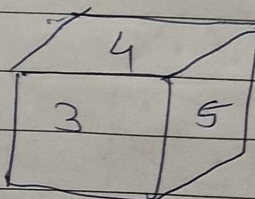

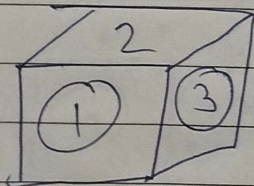

Two faces sum = 7 so, (GD)

2/5/6 $\rightarrow$ 4/3/1

Type-3 :- More than two Positions:

①

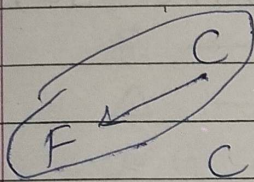

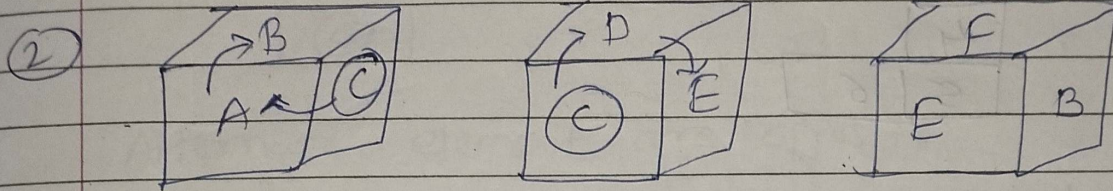

2 $\rightarrow$ 4

Two term common
so,

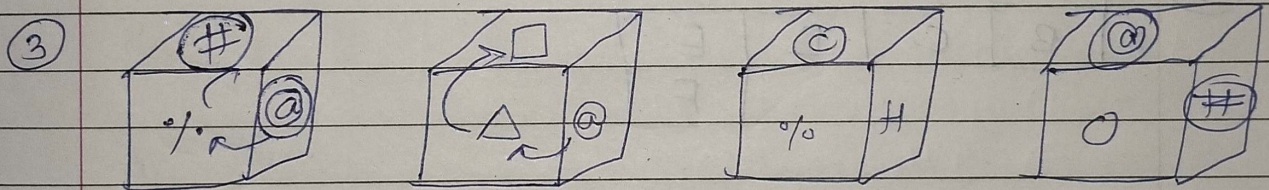

2 $\rightarrow$ 4

Note:- check terms are common or not in all dice according to that give answer.

A	B
↓	↓
D	E

A → D

Two term common

% → @

△ → %

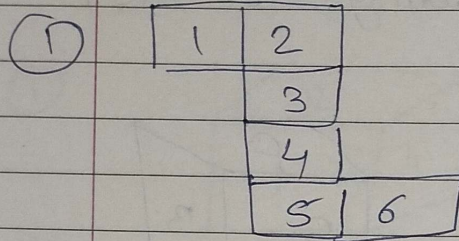

@	%	#
↓	↓	↓
△		□

Alternate numbers are opposite in open dice

PAGE NO.:

DATE: / /

Type-4:- Open Dice

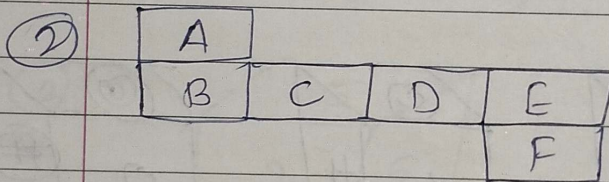

alternate numbers are opposite so,
make alternate

2 $\longrightarrow$ 4

3 $\longrightarrow$ 5

1 $\longrightarrow$ 6

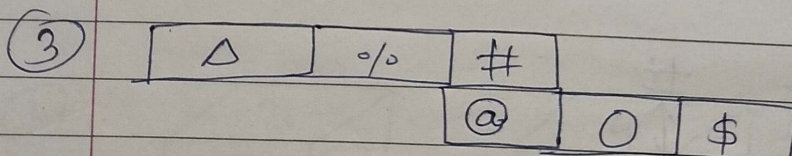

Alternate terms are opposite

B $\longrightarrow$ D

C $\longrightarrow$ E

A $\longrightarrow$ F

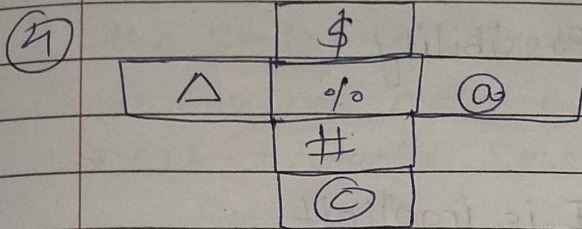

Alternate terms are opposite

Δ $\longrightarrow$ #

@ $\longrightarrow$ \$

% $\longrightarrow$ O

Alternate element are opposite

\$ → #

△ → @

% → ©
